Safety. Kindness. Patience. Making Connections

March 7-11 - Week 2

Hello families,

The recent announcement that covid restrictions will end March 21 when we return from March break.

We are waiting for guidance on what things will look like after March break. For example, I suspect masks will be optional but can be worn. It will be important for staff and students to respect personal choice. For more information on the recent announcement, [click here](#)

We continue to register for Pre-Primary and Primary students for the 2022-2023 school year. To register online [click here](#)

We are planning for next year and it is important that we get students registered as soon as possible. Students numbers are used to staff the schools.

We hope our students and families have a restful March Break! See you on March 21!
