

# Healthy Schools Grant Annual Report

**School:** Joseph Giles Elementary

**School year:** 2021-2022

## SUMMARY

Work undertaken with assistance from the grant to improve student well-being and success and how it supported the Student Success Plan (SSP):

Increase opportunities for outdoor play and instruction with the addition of a outdoor basketball net and tether ball space

## DETERMINING PRIORITIES

How the school engaged with students, teachers, the School Advisory Council (SAC), and other partners within the school community, to determine how to use grant funds:

Consulted with teachers, and SAC in meetings.

Classroom and small group discussions with students about the needs for outdoor equipment.

Partnered with the PTO to fund the project. They added an additional \$1056.00 to fully fund the project.

How the data from Student Success Surveys, and other sources of student evidence that provide a picture of student health and well-being, were considered when determining how to use these funds:

We noticed that the students were the most active during recess and lunch. The new equipment will give more students more access to games to play at that time. It will also be available after school, and in the evenings when they report being less active.

## EXPENDITURES

Project/item	Link to health and well-being	Expenditure
Basketball net and tether ball pole installed	<input checked="" type="checkbox"/> supports student mental and physical health <input checked="" type="checkbox"/> supports land-based and outdoor learning <input type="checkbox"/> supports cultural opportunities and health  <i>Impact (optional):</i> The new equipment will give more students more access to games to play at that time. It will also be available after school, and in the evenings when they report being less active	\$5264.00
<b>Healthy Schools Grant Expenditure TOTAL</b>		<b>\$5264.00</b>
